## Pressure Sensitive Adhesives

**BSI-94** consists of a thin polyester film carrier coated with a high performance Acrylic pressure sensitive adhesive on a 90lb. white release liner.

**BSI-95** consists of a thin polyester film carrier coated with an aggressive Synthetic Rubber pressure sensitive adhesive on a 90lb. white release liner.

## Features

- Non-Staining & Non-Marring
- Easy 'Peel-&Stick' Application
- Superb Abrasion Resistance
- Low Resistance to Skidding
- High Coefficient of Friction
- Crack Resistant & Resilient
- Vibration & Shock Dampening
- UL Recognized Component

### Standard Colors

**Our most popular bumpers! Every bumper is available in Clear and Black.**

The crystal clear bumper is nearly invisible when used for translucent or see-through applications.

### Additional Colors

Most bumpers are stocked in every color and ready for immediate shipment. White, Brown, and Grey can be made available for larger quantities. Please call for availability.
